

RYHILL SAFE SCHEME – SUMMARY OF JUNE 2025 REPORT

The Safe Scheme Coordinator continues to work closely with Parish Council on priority areas and issues raised as concerns by parishioners.

A total of 18 police officer hours were worked during the month of June at various times during the day and early hours of the morning.

There was **1 priority crime** in Ryhill this month. This was a burglary where the suspect entered through a rear door and property was stolen from inside the house.

Patrols included the following:

- The traffic officer conducted a 4-hour patrol in the village and issued the following tickets: 2 x speeding; 2 x seatbelt; 1 x glass not as prescribed; 1 x no insurance; 1 x non-conforming VRM; 1 x driving without due care and attention
- Several officers made a total of 5 separate patrols on off-road motorcycles targeting nuisance bikes because these are an ongoing and priority issue reported by members of the public. The greenspaces and fly lines, as well as the road network, were targeted. Officers commented that the village and surrounding areas were in fact very quiet, possibly due to children finishing GCSEs. Some vehicles were driving with loud music and they were spoken to and advised by the officer concerned. On another occasion a family with a child using a REVVI electric bike in a wooded area off the fly lines was spoken to and told to remove the bike immediately and advised about the illegality of the use of these in motorcycles in public. There was no further action taken because of the age of the child and the reasonable response from the adults. Another officer patrolled the area in search of two nominals on electric bikes following specific intelligence. Unfortunately, they did not appear throughout his shift and there have been no further reports
- An officer spent 1 patrol in the village in marked police vehicle covering the whole area. He made regular calls to The Libb because this was very busy and to address previous reports of people leaving the location in their cars and therefore likely to be over the prescribed limit of alcohol. There was no evidence of this on this occasion.
