

RYHILL SAFE SCHEME – SUMMARY OF November 2025 REPORT

The Safe Scheme Coordinator continues to work closely with Parish Council on priority areas and issues raised as concerns by parishioners.

A total of 18 police officer hours were worked during the month of November at various times during the day and early hours of the morning.

There were 3 priority crimes in Ryhill this month, however, all were at the same address over 2 days. A suspect was arrested from the address during the third incident and is being dealt with for the offence.

Patrols included:

- Traffic officer made a 4-hour tour of duty and achieved the following: 1 x TOR – mobile phone; 3 x TOR – no seatbelts; 1 x TOR – glass not as prescribed; 1 x TOR – defective/modified exhaust; 1 x TOP – non-conforming VRM.
- An officer made foot patrols around the village to help deter anti-social behaviour and provide visible police presence. He spoke to many locals, some mentioning drug use in vehicles by Ryhill workshops and The Stray, and by the Morrisons local car park. He will continue to monitor these areas because of the intelligence.
- A total of 6 separate tours of duty were conducted by the off-road motorcycle team. The officers continue to patrol the usual areas, reacting to intelligence from parishioners that they meet. In addition, they are paying attention to areas where cars are involved in drug dealing. On one occasion an officer stopped a potentially suspicious van and on another he witnessed a driver purposely skidding on a patch of ice. Driver's details were in order but he was dealt with for driving in the manner that he did.
Another officer stopped a road legal quad bike and although the bike and rider's documents were in order he was dealt with for the anti-social aspect of his driving. On another occasion, another officer was on the look out for two large motorcross bikes in red and blue that had been reported by horse riders and local residents. They riders were spotted but made off at speed through red traffic lights when they saw the officer. Officers will continue to be on the look out for these bikes and riders and continue to act upon intelligence from local residents.
